

Céline Blandin

Ethical Hacker

Cybersecurity professional with expertise in **penetration testing (CEH Master)**, **AI training**, and **project management**. Skilled in identifying **system vulnerabilities**, optimizing AI models, and managing **projects, teams, and budgets**. Adaptable and detail-oriented, ensuring **accuracy, security, and efficiency** across industries.

Experience

AI Trainer

August 2024 – Today – OUTLIER – Houston, USA

- **Designed and tested prompts** related to video, audio, and image for AI evaluation.
- **Assessed AI responses** through **fact-checking** to ensure accuracy and reliability.
- **Reviewed and refined prompts** from other contributors to align with task objectives.
- Ensured **prompt precision and relevance** to test AI performance.

Pentester

April 2023 – November 2023 – YINKOZI, Ltd, Dubai, UAE

- **Performed manual penetration tests** on Dubai governmental web applications and APIs, identifying and exploiting security vulnerabilities to help clients secure their systems.
- Daily used tools such as **Kali Linux, Burp Suite Pro, Python, Nuclei, Semgrep**, and **GitLab** for testing, vulnerability scanning, and code analysis.
- Conducted **workshops for developers**, explaining vulnerabilities and discussing best practices for secure coding and application development.
- **Presented to a major international bank**, discussing security implications of Low Code/No Code applications, outlining potential vulnerabilities and mitigation strategies.
- **On-site engagement with clients** 4 days a week, collaborating closely with development and security teams to improve application security posture.

Conference Speaker

March 2025 – FREELANCE

Houston Accueil – Houston, USA

- **AI and Cybersecurity** – French Community, Consulate Generale of France
- **Cybersecurity 2025: How to protect yourself?** – French Community

November 2021 – December 2023 – FREELANCE

Lycée Louis Massignon & Lycée Theodore Monod & Alliance Française – Abu Dhabi, UAE

- **Cybersecurity and its impacts** – Students in Grade 12
- **Introduction to Cybersecurity** – Students in Grades 3 to 12
- **Introduction to Cybersecurity – Best practices** – French community via Français du Monde ADFE
- **Cyberbullying** – French school staff, parents, and students
